SUMMARY

Motivated and detail-oriented aspiring Full Stack Web Developer with hands-on training from a 3-month internship at Pantech Solutions. Proficient in front-end and back-end technologies including HTML, CSS, JavaScript, React, Node.js, and MongoDB. Strong understanding of web development fundamentals, responsive design, and API integration. Eager to apply learned skills in real-world projects and contribute to dynamic development teams.

EXPERIENCE

Full Stack Intern Pantech Solutions

October 2024 - December 2024, India

- Completed a 3-month training program focused on full stack web development.
- Gained foundational knowledge in HTML, CSS, JavaScript, React, Node.js, Express, and MongoDB.
- Learned to build responsive user interfaces and RESTful APIs.
- Understood the fundamentals of version control using Git and basic deployment techniques.
- Explored best practices in web development, API integration, and debugging.

PROJECT

Blogify - Full-Stack Blog Platform

April 2025 - June 2025

- **Developed full-stack blog platform** using React.js, Node.js, Express.js, and MongoDB with JWT authentication and real-time notifications
- **Implemented responsive UI/UX design** with Tailwind CSS, featuring dark/light theme switching, mobile-first design, and modern animations
- **Built comprehensive content management system** including CRUD operations for posts, nested comment system with replies, and image upload via Cloudinary integration.
- **Designed scalable backend architecture** with RESTful APIs, middleware authentication, password hashing, and MongoDB database optimization
- **Created advanced user features** including profile management, notification system, settings dashboard, and role-based access control
- **Deployed professional-grade application** with error handling, loading states, form validation, and cross-browser compatibility

Hotel Booking Website

January 2025 - February 2025

- Designed and developed a full stack hotel booking web application that allows users to search and book available rooms in the local area.
- Implemented user-friendly front-end with React, enabling users to browse listings, check availability, and book rooms seamlessly.
- Built RESTful APIs using Node.js and Express for handling bookings, user data, and hotel information.
- Integrated MongoDB for secure and efficient storage of user and room data.
- Focused on responsive UI/UX and ensured smooth navigation across pages with real-time updates.

EDUCATION

Bachelor of Technology in Information Technology

University Institute of Technology, Shimla (Himachal Pradesh) • India • 2025 • 8.33

Higher Secondary Certificate (Class 12) in Non-Medical Stream

B.K Public Sr. Sec. School, Jaisinghpur(Kangra) • Himachal Pradesh • 2021 • 94.2%

Secondary School Certificate (Class 10)

B.K Public Sr. Sec. School, Jaisinghpur(Kangra) • Himachal Pradesh • 2019 • 92%

SKILLS

Database Management: MongoDB, Mongoose ODM

Version Control: Git, GitHub

Development Tools: VS Code, Postman, npm, Chrome DevTools

Programming language: C++, Javascript

DevOps & Deployment: Docker, AWS (EC2, S3), GitHub Actions

Frontend Development: React.js, JavaScript (ES6+), HTML5, CSS3,Tailwind CSS

Backend Development: Node.js, Express.js, REST APIs
